

Installing Desktop Decorator on a 64bit Operating System

- Download Desktop Decorator from: <http://www.kopykake.com>
- Save the file onto your Desktop.
- Right click on **Decorator.exe** and choose Properties

- Once the Properties window comes up, Choose the “**Compatibility**” tab:
- Checkmark “**Run this program in compatibility mode for:**”
- Pick an Operating System (I.e. Windows XP)
- Hit Apply then OK

Double Click on Decorator.exe and run installation procedure...

That's it!!...
